HERTFORD COLLEGE UNDERGRADUATE BURSARY

Hertford College provides a bursary of £1,000 a year to all UK and EU undergraduates studying for a 1st degree who are assessed by their regional funding agency as having a household income of less than £50,000. This bursary represents our tangible commitment to the principle that admission to Hertford is based on academic merit alone and that no one should be deterred from applying to Hertford for financial reasons.

This bursary, which is one of the most generous college bursary schemes in the University, is in addition to government loans and grants and the Oxford bursary, details of which can be found in the booklet *Undergraduate Funding for 2012-13 Entry* enclosed in your offer letter.

There is no application process provided you have been financially assessed by your regional funding agency and you have consented to share information on your household income with the University on your assessment application.

The Hertford bursary will be automatically credited to your College account in two equal instalments in January and April.

For further information on the Hertford bursary and funding in general, please see updates from the end of January on the College web site: [www.hertford.ox.ac.uk/admissions](http://www.hertford.ox.ac.uk/admissions) or telephone 01865 279420/279465 or email bursary@hertford.ox.ac.uk.
