Hertford College
UNIVERSITY OF OXFORD

# Getting Connected: Pre-Register for Wi-Fi Access

To make your arrival at Hertford as smooth as possible, we strongly recommend that you pre-register for access to the college's wireless network before you arrive. Once you complete registration, you'll receive a personal code that lets you connect to Wi-Fi across most Hertford properties.

Before you begin: make sure you have activated your University of Oxford Single Sign-On (SSO) account - **this is *essential.*** If you haven't activated SSO yet, visit the University SSO activation page or contact IT support for help.

A few important things to keep in mind:

- **One registration per student.** Complete the registration steps once; you don't need to repeat them for every device - your wireless code will work across all your personal devices.
- **Do not share your code.** Your code is tied to your SSO account and to you personally; anyone using it will be recorded as you.
- **Validity.** Your wireless access code is valid for one year. After that, you'll need to repeat the process to renew access for another year.

## How to register

1. From any device, on any network, go to: https://wifi.hertford.ox.ac.uk or scan the QR code below.

2. Read the terms and conditions, tick the box if you agree, then click **Start**.
3. Select the **Wireless** option.
4. Sign in using your University SSO credentials when prompted.
5. You'll be issued a personal wireless access code - it will appear on screen and will also be emailed to you by ***Cloudpath***.
6. Once you arrive at Hertford, connect to the Wi-Fi network named ***Hertford*** using your access code.

If you encounter any issues with this process, please contact our IT helpdesk located at: https://it-support.hertford.ox.ac.uk.
